

Customized Medium Wave Water Ripple Finish Stainless Steel Sheet

Medium water ripple stainless sheet is using stamping and mirror polishing technique in order to give the metal texture a water effect. It's very popular in worldwide modern interior design.

- Grade : 304/316/430, etc
- Material : stainless steel
- Origin : China
- MOQ : 30 sheets
- Size : 1000mm*2000mm, 1219mm*2438mm, 1219mm*3048mm, 1500mm*3000mm, etc
- Custom available : Available
- Finishing : Water ripple finish, PVD color coating is available

Water Ripple Finish Sheet

Stainless Steel Decorative Sheet

Product Description

Water ripple finish is commonly applied to ceiling, cladding and art decoration. Different decorative projects are endowed with the same depth of space, and metal texture is used to provide unique water flow experience. This small wave scale is designed to showing the individual crest in a small way, which can be applied to specific interior request. We also provide other water ripple patterns too. Although our standard size is 1000*2000mm, 1219*2438mm and 1219*3048mm. But custom size is also available.

*What is stamping?

Stamping is a metal forming process that uses a stamping machine to produce raised or sunken designs on a stainless steel sheet. The stainless steel sheet passes through a machine mold to produce a corresponding regular design pattern on its surface. In addition, depending on the roller mold used, different patterns can be produced on the metal surface.

Stamping processing can be accepted on 2B, BA, mirror and #4 finish, and PVD coating can be carried out after stamping. We also offer stamping stainless steel processing such as laser cutting, bending, welding and other CNC mechanical services.

Product Parameters

Product Name	Stainless Steel Sheet Medium Water Ripple Finish
Length	2000mm/2438mm/3000mm/or as required
Width	1000mm/1219mm/1500mm/or as required
Thickness	0.30mm-1.50mm or as required
Standard	AISI, JIS, GB, etc
Surface Finishing	Water ripple finish, PVD color coating is available
Thickness Tolerance	$\pm 0.01 \sim 0.02$ mm/or as required
Material	304/316/430/etc
Application	Elevator interior/Architectural/Cladding/Interior decorations
MOQ	30 sheets
Lead Time	Within 10~30 workdays after receiving deposit
Packing	Standard Export Seaworthy Wooden Package/or as required
Capacity	15,000 PCS Production Capability/Month

Sheet Bending

As shown in the figure, we support the additional processing service of stainless steel sheet. As long as the customer can provide the corresponding design drawings, this processing service can be well completed. Moreover, due to customs policies in many countries and regions where foreign customers are located, stainless steel sheet products from China will be subject to additional tariffs. After sheet metal processing, this tariff can be well avoided.
